**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

A cold and frosty start will make some surfaces a little slippery, however despite the sunshine it will feel cold especially near summits and higher ridges. Given the clear skies UV levels will be moderate some protection is advised. Appropriate warm winter clothing will be necessary.

Recent rainfall: measured at Neuadd: altitude 353m

Recorded at	Last 24 hours:	Last 48 hours:	Last 72 hours:
14:00 on Sat 09 Apr 2022	0.4mm	1.8mm	7.4mm

Forecast for Monday 11 Apr 2022

Weather: A cloudy but dry start Monday, however outbreaks of rain, locally heavy will arrive across the park from mid-morning before clearing to the north and east during the afternoon. Remaining cloudy throughout the afternoon with a spell of showery rain possible late evening.

Maximum wind: South-easterly, mean 18-25mph, gusting 35-45 mph

Chance of cloud-free hill tops above 600m: 60%

Low cloud and visibility: Visibilities generally good, however reducing to poor within rain bands. Cloud generally above mountain tops during the morning, however some low cloud, particularly across western slops will give poor visibilities above 400-600m from late morning.

Temperature: **Valleys:** 3 Celsius rising to plus 12 Celsius
At 600m: 2 Celsius rising to plus 8 Celsius
Freezing level: Above the level of summits
